

CX Portal - Registration Approval

 This page is currently work in progress
Owner: [Julia Jeroch](#)

Summary

The registration approval board is created for the CX Admin to managed registration applications to the Catena-X network.

Acting user: CX Admin (Operator)

Design

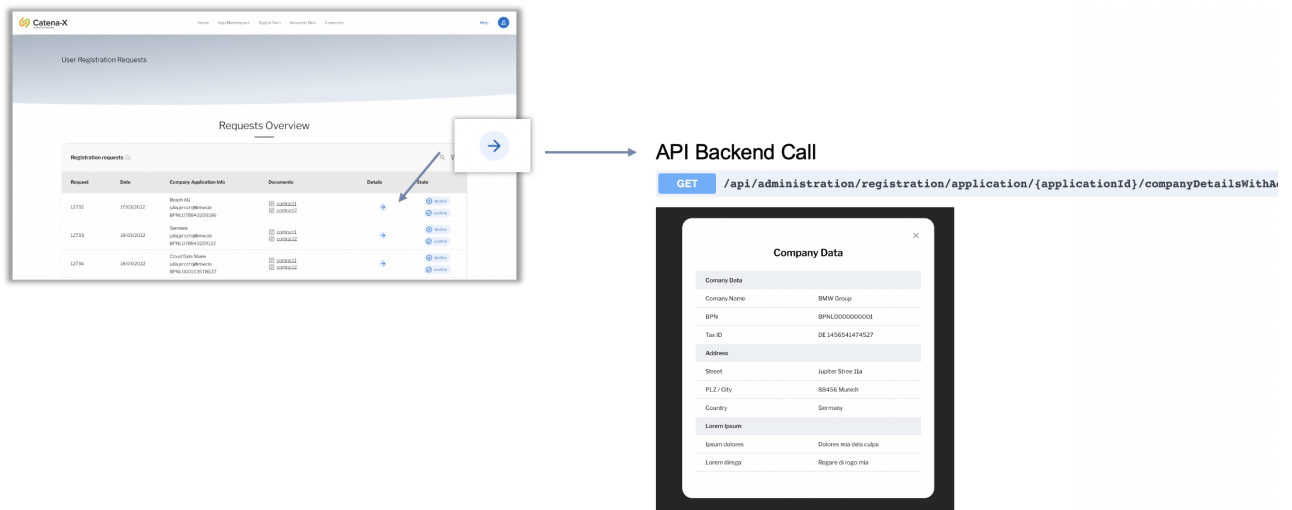

Overview

User Registration Requests

The application request board includes all current outstanding application requests as well as an overview of confirmed and declined company applications to the Catena-X Network. If an application is approved, the registration company will receive access to the CX portal to start the technical and functional onboarding. Please make sure that you validate the application request details before approving.

Registration requests (6)					
Request	Date	Company Application Info	Documents	Details	State
0195a85f-e465-45...	2022-03-24	Car Factory 2 CAXSCARFACTORYZZZ		→	declined
4f0146c6-32aa-4bb...	2022-03-24	SAP AG CAXSDUMMYSAPZZ		→	confirmed
4f0146c6-32aa-4bb...	2022-03-24	CDQ CAXLCDQCORPZZ		→	confirmed
4f0146c6-32aa-4bb...	2022-03-24	Bayerische Motorenwerke AG CAXSDUMMYBMWZZ		→	confirmed
4f0146c6-32aa-4bb...	2022-03-24	BOSCH CAXLBOSCHZZ		→	confirmed

Display Application Details

Inside the dashboard, the CX-Admin can "confirm" or "decline" applications if those are successfully submitted by the requester company inside the registration app.

Details to the logic can get found below.

Implementation

#1 Get Applications

Get all applications in status "submitted", "confirmed" or "declined" with the respective application data entered by the registration company member.

Endpoint: [GET api/administration/registration/applications?page=0&size=4](#)

Applications in any status beside the three mentioned status above will not get included in the response.

#2 Search for a specific application by company name

Endpoint: [GET api/administration/registration/applications?companyName={searchValue}&page=0&size=4](#)

#3 Confirm Applications

The API is approving the application request.

Inside the api implementation, the application status is validated to ensure that only applications with the correct status are updated. If the application is in any other status than "submitted", the call will run on an error.

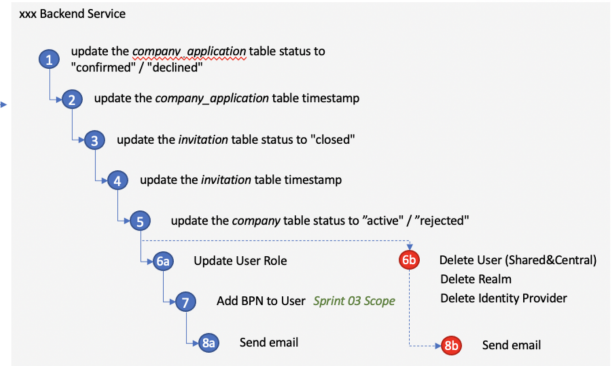

The following picture gives an overview of the executed backend jobs when confirming a application request.

Endpoint: [PUT api/administration/registration/application/{applicationId}/approveRequest](#)

What

Request	Date	Company Application Info	Documents	Details	State
148576	14/03/2022	BRUNO AD gbrunad@brunoad.it BPN: 532628465	<input type="checkbox"/> Status confirmed <input type="checkbox"/> Status register accepted	*	<input type="button" value="decline"/> <input type="button" value="confirm"/>
148577	14/03/2022	SAP sbrunad@brunoad.it BPN: 532628465	<input type="checkbox"/> Status confirmed	*	<input type="button" value="decline"/> <input type="button" value="confirm"/>
148576	12/03/2022	BRUNO AD gbrunad@brunoad.it BPN: 532628465	<input type="checkbox"/> Status confirmed <input type="checkbox"/> Status register accepted	*	<input type="button" value="decline"/> <input type="button" value="confirm"/>
148575	10/03/2022	Trumpf tbrunad@brunoad.it BPN: 23242319	<input type="checkbox"/> Status confirmed <input type="checkbox"/> Status register accepted	*	<input type="button" value="decline"/> <input type="button" value="confirm"/>

#4 Decline Applications

The API is declining a selected application request.

Inside the api logic, the application status is validated to ensure that only applications with the correct status are updated. If the application is in any other status than "submitted", the call will run on an error.

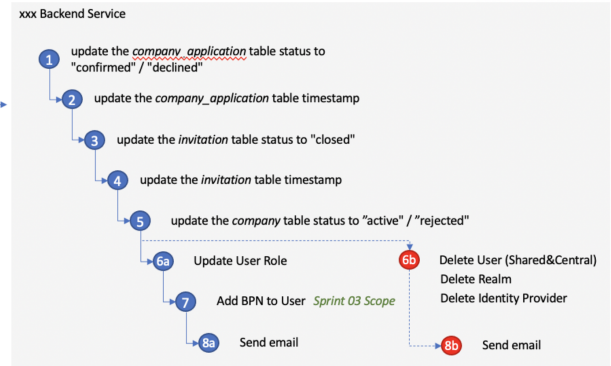

The following picture gives an overview of the executed backend jobs when declining an application request.

Endpoint: [PUT api/administration/registration/application/{applicationId}/declineRequest](#)

What

Request	Date	Company Application Info	Documents	Details	State
148576	14/03/2022	BWCH AG bwch@bwch.de BPN: 123456789	<input type="checkbox"/> Status confirmed <input type="checkbox"/> Status rejected/declined		confirmed
148577	14/03/2022	SAP sapsales@bwch.de BPN: 123456789	<input type="checkbox"/> Status confirmed <input type="checkbox"/> Status rejected/declined		declined
148578	12/03/2022	BMW Group bmw@bmw.de BPN: 123456789	<input type="checkbox"/> Status confirmed <input type="checkbox"/> Status rejected/declined		declined
148575	10/03/2022	Trumpf trumpf@trumpf.de BPN: 123456789	<input type="checkbox"/> Status confirmed <input type="checkbox"/> Status rejected/declined		declined

#4 Download Document

The API is downloading the document which is selected by the user.

Endpoint: [GET /api/administration/Documents/{documentId}](#)

The application request board includes all current outstanding application requests as well as an overview of confirmed and declined company applications to the Catena-X Network. If an application is approved, the registration company will receive access to the CX portal to start the technical and functional onboarding. Please make sure that you validate the application request details before approving a request.
