Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the blind texts. Separated they live in Bookmarksgrove right at the coast of the Semantics, a large language ocean. A small river named Duden flows by their place and supplies it with the necessary regalia. It is a paradisematic country, in which roasted parts of sentences fly into your mouth. Even the all-powerful Pointing has no control about the blind texts it is an almost unorthographic life One day however a small line of blind text by the name of Lorem Ipsum decided to leave for the far World of Grammar..

Implementation

#1 Get app details

The api is responding with all app details for a specific app id. Within the path, the app id is getting send. Additionally language can get set as optional parameter. If no value is send for "language" inside the request call, english will be used as default language setting for the app detail response.

Additionally the app subscription status is included.

Endpoint: GET /api/apps/{appId}

Response

```
{
  "id": "3fa85f64-5717-4562-b3fc-2c963f66afa6",
  "title": "string",
  "leadPictureUri": "string",
  "detailPictureUris": [
    "string"
  ],
  "providerUri": "string",
  "provider": "string",
  "contactEmail": "string",
  "contactNumber": "string",
  "useCases": [
    "string"
  ],
  "longDescription": "string",
  "price": "string",
  "tags": [
    "string"
  ],
  "isSubscribed": "PENDING",
  "languages": [
    "string"
  ]
}
```

Subscription Status Management:

The "Subscribe" button shows different state and color depending on the company subscription status. Below the button states are shown:

	Unsubscribed App	App in Subscription Status „PENDING“	App in Subscription Status „ACTIVE“
 User with permission „subscribe_apps“			
 User with no permission „subscribe_apps“
